

BORN ON THE TRACK!

AN EXCEPTIONAL SPORTING SEASON 2012

AMERICAN LE MANS SERIES

In the **FRANCHITTI brothers'** corner (multi time winners of the 500 Miles of Indianapolis and Indycar Champions) **Scott TUCKER** and **Christophe BOUCHUT** take their second crown of **ALMS LMP2 Championship**, drivers and Team. After a season that saw remarkable feats, from Sebring to 24H of Le Mans, and also Laguna Seca, **the team affirms its supremacy in the U.S.A.**

PIKES PEAK HILL CLIMB

In **Romain DUMAS's** corner, KENNOL pulled off **the feat of the summer** finishing just 0.017s off the record of this mythical track after 20km and 156 turns! The feat is all the more resounding in that the 911 GT3 Porsche is registered in a lower category and that Romain ended the ascent under hail, then snow... **Extreme conditions, for a historical performance!**

KING OF EUROPE - DRIFT

For its baptism of fire of the **highest world level of Drift**, KENNOL associates itself with **3 prestigious Japanese drivers** and shines right from the first turns of the circuit of this sport which brings contagious fun. **Daigo SAITO** wins the first European round before being crowned **USA Champion** a few months later **winning the famous Formula Drift 2012 series.**

WORLD RALLY CHAMPIONSHIP

KENNOL enters the **WRC, the elite of International Rally**, for the first time, which has been dominated for 10 years by Sébastien LOEB. And it is with strong panache that **Romain DUMAS**, in his Mini John Cooper Works WRC, beats the rest of the field to the ninth time World Champion during his first special... before ending this event in good position!

KENNOL RACING TEAM

And finally, in France, the **KENNOL Racing Team** continues its ascent, and impresses more and more. Already vice-champion of France FFSA 2011, the one-seaters do this again in VdeV with **Hugo BLANCHOT**, who becomes **French Champion VdeV 2012!** The stable now has a dozen vehicles spread out over 5 different championships.
